

## Better Patient Care thru Better Practice Management

### Did you know there is a system that:

- Gives you more time with your patients?
- Improves the profitability of your practice.
- Helps you provide better patient care.
- Gives you access to your clinic information no matter where you are.
- Available on **PC's, MAC's, iPhone & iPad**

And has been **proven to work** by over 600 users. Sterling Systems has worked with health professionals since 2003 to create an easy-to-use and extremely reliable system to manage your patient records and financial data. The system is **eAlth** (pronounced "Health" without the H).

### Suits practices of all type and sizes.

Currently used for osteopathy, chiropractic, physio, podiatry, acupuncture, naturopathy, TCM, psychology and natural therapy clinics.

From a single practitioner who wants more time with patients, to clinical groups who need accurate productivity results and billing records per practitioner, eAlth can provide the answer.

Also being used at teaching institutions around Australia to train physiotherapists, chiropractors, osteopaths and TCM

### Used by Clinics & Teaching Institutions

The eAlth system is now managing in excess of **100,000 patient records for clinics around Australia and New Zealand**. eAlth is selected as the "patient management system of choice" by teaching institutions in Australia.

### Patient maintenance and details.

eAlth securely maintains all patient details and histories for each visit. Complaint, diagnosis and examination details can be recorded into various sections (see below). Any electronic files can be attached to the patient details to be viewed on-line when required.

## Some of the great features include:

- ✓ Complete patient management system.
- ✓ Auto appointment & referral reminders via email or SMS.

- ✓ Flexible appointments and schedule.
- ✓ Cancellations and waiting lists.
- ✓ Capability as a research tool.
- ✓ Patients can book appointments over the web.
- ✓ Provides visual patient complaint records.
- ✓ Billing summaries and productivity reporting.
- ✓ Mail merge and letter writing.

### Practice and Clinic management.

You can readily customise eAlth to maintain details of your practice, clinic(s) and practitioner(s), which gives you a tailor-made solution for the same low monthly fee.

### With eAlth you can customise:

- Appointment types and templates
- Billing rates
- Practitioner availability (lunch, golf etc)
- Complaint codes
- Diagnostic types
- Examination codes
- Record and charge for cancellations
- Automatic appointment reminders to patients
- Waiting lists

### And now for the NO's

- No long term contracts (only 3 months at a time)
- No initial cost
- No set up fee (we do the set up for you)
